

## EMPLOYMENT OPPORTUNITY

Power Test, Inc. is a world leader in the manufacture of heavy duty engine, transmission and chassis dynamometer systems. Established in 1976, we are a consistently growing and dynamic organization. Power Test was awarded the 2011 Wisconsin Manufacturer of the Year Award for Operational Excellence and Community Support and was also named the 2011 Healthiest Employer in the Small Business category in southeast Wisconsin.

**Power Test is currently seeking a CAD Designer.**

### **CAD Designer**

**Job Description:** CAD Designer will work as part of a team of designers revising, detailing, and producing a variety of layouts, models, assemblies and drawings for new and existing products. Experience with detailed drawing of machined parts preferred.

**Responsibilities:** Include, but not limited to production of machine layouts, models, assemblies and detailed drawings for new & existing products; maintain ECN procedures and documentation when redesigning existing products.

The ideal candidate should have experience, knowledge and/or ability in any or all of the following:

- Mechanical aptitude
- Good verbal and written communication skills
- Understanding of industrial machine construction (bearings, pulleys, fabrications, etc.)
- Understanding of manufacturing processes & tools (welding, casting, mill, lathe, CNC, metal brake)
- MS Word, Excel, Outlook
- SolidWorks & AutoCAD

**Education and/or Experience:** 1-3 years of experience along with a minimum High School diploma (or Equivalent) with an emphasis in Mechanical CAD Design, along with some experience with SolidWorks and AutoCAD. Basic understanding of mechanical, electrical and computer systems is very desirable.

**Compensation and Benefits:** In addition to a competitive salary, we are proud to offer an excellent benefits package including:

Holiday pay, Health Insurance, Vacation Time, Dental Insurance, Life Insurance, 401K, Profit sharing, Tuition Reimbursement, Performance Bonus, Wellness Program and Fitness Center
